This information will be documented within the participants *Exit Plan*. Clever Care NOW will also include an assessment of risks associated with the transition (including those that are developed in collaboration with your new service provider/s) to ensure they are adequately identified, documented, and responded to.

Investigating Incidents

The options for investigating incidents are:

- **No further investigative action** – This may be appropriate where it can be clearly established that the report of the incident is inaccurate or there is no basis for concern about your safety or the quality of care you are receiving. If the decision is not to undertake an investigation, the grounds for this decision must be supported and recorded with reasoning backed up by evidence. The incident must then be the subject of a review.
- **Monitoring and support required** – Certain information may raise issues that do not necessarily warrant an investigation, but nevertheless require changes in practices. General Manager may manage these issues by monitoring and supporting affected staff members or participants including yourself, and documenting this on relevant staff files and in your file. The incident must then be the subject of a review (detailed below).
- **Internal investigation** – This option may be selected only where we have the capability to undertake an investigation independently.
- **External investigation** – In other cases, we will need to commission an investigation by an external party to ensure the investigation is robust, objective and expert. Our Investigation Manager may commission an investigator, or a person from another organisation, with relevant expertise.

Regardless of the type of incident or investigation method used, incident investigation must focus on the incident only. All parties involved in an incident must be provided with procedural fairness and with the support and information necessary to participate in the investigation process.

Our staff, contractors and volunteers working with children are Mandatory Reporters with respect to protecting people from harm. Our staff must report any suspected or actual reportable concerns to the Police or Child Protection authorities as soon as practicable. Our staff must also notify the Directors of their report. We must provide timely feedback to anyone who reports an incident, raises concerns, or makes a complaint about harm to another person.

Feedback must be provided to you as soon as possible and within 7 days from the incident occurring. If an incident cannot be responded to you in full within 7 days, an update must be provided. This should include the date by which a full response can be expected. The update should be provided verbally in the first instance then confirmed in writing.
